Country Code Quiz

Discuss in your team whether the following are true or false:

Always clear up and take away with you all litter

It's OK to leave litter that's bio-degradable, or provides food for bird or animals.

Dropping litter is a criminal offence

You can pick wildflowers that are not protected species

You must not pick flowers or dig up roots or bulbs of any protected wild flowers.

Keep clear of any wild animals you come across

Do not damage and natural features such as rocks, stones, walls, trees, plants.

Always give plenty of space to domesticated farm animals especially if they have young.

If lighting a fire, make sure you do it under the shelter of a tree.

You can light a fire on public land with care.

Never light a fire unless on private land and it has been agreed with the owner.

Always close gates behind you.

Leave gates and fences as you find them

If a footpath crosses a field of crops, walk round the edge of the field

If you find an animal in distress alert a farmer or neighbouring house.

If you find a hurt animal take it to the farmer or neighbouring house.

If your footpath is closed with a "No-Entry" or "Private" sign go straight ahead, as it is your right of way.

It's OK to use old maps as roads and paths hardly ever change.

Check weather conditions before departing and ensure you have everything you need for change of weather.

Always walk on the right side of the road.

Always walk on the left side of the road

Always walk on the side where you can be seen clearly by cars from both directions

Give way to horses of a bridle path

Give way to cyclists on a footpath

Always walk around the edge of a field with a flock of sheep or herd of cows

If challenged that you are on private land, stand your ground if you are sure you are right.

If lost in a mist, keep walking in a straight line

Abandoned farm machinery is a good place to sit with your lunch.
